

Legislature Has Heavy Docket of Interim Work

By STATE SENATOR JAMES NISBET

We have scarcely had the chance to regain our breath after the hurly-burly of the recent general and special elections, but already we must plunge into preparations for our interim work during the time before the July general session.

Many of the heavy chores of matters which have been referred for interim study.

In the Senate, about 20 bills will come before the Senate in the interim groups. The Assembly's bill of 20 bills, 1965 resolutions which will probably be assigned to its committees. For the two bodies of bills will thus have almost 1,200 measures which may be reviewed.

The topics involved in this enormous study workload range from the most technical legislative problems. From air ports to water resources, from wheat trucks to road advertising, the list of matters seems almost endless.

Many of the proposals to change the way in which the legislative process is conducted.

Others require careful review to make sure that the interests of all parties concerned are taken into full account. Some of these are the bills of State and local taxation, that might be needed just as the detailed research involved.

The Senate and the Assembly have organized themselves differently to conduct their interim work. The former house has adopted a standing rule which establishes 12 "study committees," to each of which is assigned the interim work in a particularly legislative area. In addition, the rule provides that all 40 members of the Senate constitute the general fiscal interim authority, except as to matters assigned to the 12 study committees.

Under Assembly rules, the transferred from County jail to the California Institution for Men yesterday for processing to the CVA facility.

His 19-year-old brother, Gary Vincent Johnson, was earlier committed to state prison following his conviction of assault on a woman in the same case.

The brothers were apprehended a week after a three-state search began for the pair following the holdup at 4000 Tyler Ave and the assault on CHP officer David Babcock during a subsequent chase.

Investigators said it bandits barged into the Riverside liquor store, snatched up \$50 and headed into San Bernardino County in an attempt to escape.

Babcock and his partner, officer Bernie Kuehl, spotted a car meeting the criteria of the go-away auto and gave chase through San Bernardino county's West End.

The occupants of the suspicious vehicle were found a sawed-off rifle all the car window, smashing the cruiser's windshield and turning Babcock with flying glass.

Total circulation of United States business publications has passed the \$5 billion mark, for a 125 per cent increase in 15 years.

OPINION

Responsibility of assigning matters to the interim groups should be reviewed.

Obviously, money is required to enable this structure of interim organizations to function properly. The Senate has earmarked a total of \$45,000 for its groups. The largest amount, \$65,000, has been allocated to the revenue and taxation committee. The Assembly has allocated \$500,000 from its contingency fund for its committees, and has allocated an initial \$100,000 to each, pending the preparation of a bill budgeted by each committee.

In addition to these sums, other sizable amounts have been allocated to several legislative committees, some established by statute, others by resolution. Two new ones, the one to review the master plan for higher education, and the one to study the unemployment compensation disability system, were set up this year. Other locations to these joint committees may only be roughly estimated at about \$1,200,000 for the interim period.

Gets Sentence For Gun Battle

A young Gardena man, convicted of assaulting a CHP officer, was sentenced to 18 months in the state prison for his role in a gun battle of the Senate committee, which revealed interim authority except as to matters assigned to the 12 study committees.
