County's Citrus District Struck by Planting Wave

September issue of the citrus industry... In 1958, more new trees will be planted in the Citrus County District, during 1959 than in any previous year.

One grower who is actively engaged in a replanting program... Mr. Crain, a local grower, stated that the replanting program is being carried out in a systematic manner.

Special care from the beginning is essential if replants are to get off to a good start... Mr. Crain has a complete program outlined for this purpose.

Replants are set out on the replanting site in groups... Proper attention to irrigation, weeding and other cultural practices is essential for the best results.

Proper attention to irrigation... Weeding and other cultural practices are essential for the best results. This is of particular importance.
