Mari Ragsdale and Dean Scholes of Kansas City and Bob Scholes of Omaha spent the week-end here with Mrs. Virginia Scholes.

There are plenty of "good" citizens who have never been in a saloon, a gambling den or a house of ill repute but there are even more who have not been in a Sunday School room since they were knee high to a grasshopper.—Ellsworth Messenger.

Overheard on a Madison Avenue bus: "He's been quite sick. He had that disease—I've forgotten the name—where the red popsicles eat up all the white popsicles."—From the Lighter Side of The Reader's Digest.

(Editor's Note: The author of "Harvey in Hollywood," a weekly feature, is a former Council Grove youth who is now making a name for himself in the movies. His column appears in several west-coast papers. A former employee of The Republican, he has consented to its use in the Ol' Home Town paper as often as space will permit, and the editor believes that it will be of interest to readers to get his point of view of Hollywood.)

SPECIAL TO THE REPUBLICAN!
Hi Neighbors! By the time you read this we will be up in the far reaches of the Joshua Desert around Pioneertown, the movie-set where people live. We ride that away with GENE AUTRY to make two of his television westerns and as usual we'll be doing a bad old meanie. So next week we'll give you a report on what really happens when a picture company goes on location. If we can get some of the beauty of the desert and the action of the picture down on paper, it should be fairly interesting reading. . . so plan on dropping around then, will you?

A new trend or cycle has set in here in Hollywood, and you can look for a wave of comedy westerns. Warren Hull has a deal round with their BIG CROSBY-HOPA-LONG CASSIDY pic, and while we're on that. . . Bing has turned aside plans to make another one with HILL 'BOYD. Maybe Bing didn't like the idea of playing cowand fiddle to a cowboy and a horse. But the one that should put a stop to this whole thing is the announced production that will star our punchy friend. . . SLAPSY MAXIE ROSENBLOOM in a western now called "The Adventures of Skip-Along Rosenbloom." This we gotta see!

SPADE COOLEY starts a new series of hoss-oprys for Eagle-Lion this week. His first one is called "Border Raiders" and you know there will be music in it. . . all the way.

THERE'S MONEY IN MOVIES. Well, anyway, one movie. The main titles of 20th-Fox's "Mr. 880" will be shown against a blowup of a real dollar bill. . . that big. This is the first time the government has allowed actual money to be photographed. . . there's a law against it). . . and special permission had to be obtained from Washington. Mayor Uncle Sam figures a dish of rice he hired a mariachi band and in his best high-school Spanish said "Sing for Rice" for one of the very typical Mexican songs." Lodge worth enough anymore to worry about. About the only place a dollar looks important these days is in the church collection plate.

Warner Brothers have announced a re-make on "The Gold Diggers" and there is no truth in the rumor that they will go on location at Fort Knox!

Did you see else remember that FLORENCE CHADWICK, the California gal who swam the English Channel the other day, played a bit swimming part in ESTHER WILLIAMS "Bathing Beauty" back in 1943?

POLITICAL NOTE: SIDNEY BLACKMER is back in town and is much in demand. Asked to play TEDDY ROOSEVELT on the screen again. Sidney has played the part in 14 pictures already and doesn't want to carry "The Big Stick" anymore. He explained it to us this way. . . "Won't they ever learn that no Democrats just don't like to play those Republican roles?"

(P. S.: Blackmer is a North Carolina boy and that may explain it.)

RED FACE DEPARTMENT: Lodge Cunningham, a Columbia sound engineer, is blushing all over the lot these days and with reason. It seems that Lodge, on location down in Mexico for "The Brave Bulls" picture, was asked to find some really authentic native music to bring home for the picture. So did his uncle, and when he got back he was pronounced the world's "perfect of their type"—strictly a type that no senorita or U. S. moviegoer would ever be allowed to hear! Ex muy caliente!

PAT WYMORE NOTE: This lovely Kansas red head has taken her betrothed down to Kansas to meet folks back home to meet her folks and all seems lovely. But we can't help wondering how the reception produced in New York feels right now. Only three weeks ago he proudly announced, on a coast to coast TV show, that he was engaged to the Kansas beauty. Things can get so mixed up, at times, in Hollywood.
