cost of what
life work. How can I arrange for lessons under the GI Bill?
A.—Since the course you contemplate is one which is frequently pursued for recreational purposes, you will have to submit to VA complete justification that the course you want is in connection with your present or contemplated business or occupation. Prior approval must be obtained from VA before you start such training.
Q.—Since my discharge from the Army, VA has waived the premiums on my NSLI policy because of my total disability. Will the waiver affect the amount of the dividend I will get?
A.—No. Dividends will be paid for all periods the insurance was in force unless waiver of premiums.

Harvey In Hollywood

by Don Harvey

(Editor's Note: The author of "Harvey in Hollywood," a weekly feature, is a former Council Grove youth who is now making a name for himself in the movies. His column appears in several west-coast papers. A former employee of The Republican, he has consented to its use in the Ol' Home Town paper as often as space will permit, and the editor believes that it will be of interest to readers to get his point of view of Hollywood.)

Hi Neighbors: If this column suddenly zooms off the page and glides out into space, blame it on to the picture I am currently making for Columbia. It's called "Atom Man vs Superman" and it's a serial in 15 chapters. If you think it isn't the truth of the year to translate the action of Superman from the funny papers to film, just try it one rainy afternoon. LYLE TALBOT . . . (an Omaha, Nebraska boy who made good in Hollywood) . . . is Atom Man, and yours truly plays "Alber" the mad scientist (J.G.). The ray guns, gizmos and gimcracks we use to try and defeat Superman are a sight to behold. But don't sell serials short. This one will cost about 250 thousand bucks to make and will gross around 3 million at the boxoffice. Supermoney from Superman!

Personal Publicity Dept.: We have our picture in the current issue of Saturday Evening Post (issue of Jan. 28) . . in color too! In the layout of pictures for H. Allen Smith's article on Pioneertown, "Just Like The Movies" the cowboy leaning on the hitching rail in front of the newspaper office is Harvey. The picture was made while we were up in the desert making "Girl From San Lorenzo," a Cisco Kid western.

MABEL STARK, famous woman animal trainer, is a living example of the old "show must go on" school of entertainers. Just about a week ago MABEL was seriously mauled and chewed by a tiger called Pasha. For awhile the medicos thought they would have to take off her right arm, but finally managed to save it. Now Miss Stark sits up in bed and tells us that she will be back in the arena with her cats by February 15th. We worked with Pasha in our picture "Forbidden Jungle" and she's a lot of cat. Good luck, Mabel, we admire your courage, but don't envy your job.
